EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Cancel claims 1-~~3~~⁴ and 9-12 nonelected without traverse.

The following is an examiner's statement of reasons for allowance: Applicants' argument that the molded phosphor is placed in the crucible is supported by what is known in the art, e.g., EP1385050, para. 76. Also, the support for the phosphor panel is placed in the apparatus of Morikawa et al. prior to "the support" being charged into the crucible and how a crucible holds a support for receiving vapor is not clear from Morikawa et al. or other prior art. The panel produced by the method of the instant claims has different properties as shown in the specification.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard L. Schilling whose telephone number is 571-272-1335. The examiner can normally be reached on flex.
